

Michigan State of the State 2024

Dental Insurance Coverage and Oral Health

CareQuest Institute for Oral Health's annual State of Oral Health Equity in America survey asked over 9,000 adults about visiting a dentist and about dental benefits included in Medicaid and Medicare. Overall, 94% of surveyed adults agree or strongly agree that Medicare should cover dental care, and 93% agree or strongly agree that Medicaid in their state should cover dental care.

Michiganders Visiting the Dentist

- In 2024, **67%** of adults in Michigan saw a dentist in the past year; **6%** had an oral health problem but did not visit a dentist because of cost.
 - Nationally, 68% of adults saw a dentist in the prior year, and 8% did not visit a dentist for an oral health problem because of cost.
- **Eighteen percent** of Michigan adults did not have *dental* coverage in 2024, compared to **8%** who did not have *health* insurance. **Three percent** of adults in Michigan visited a hospital emergency department — instead of a dental office — for dental care in 2024, with charges for these visits reaching as much as **\$448 million**.¹
 - Nationally, 26% of adults lacked *dental* coverage in 2024, while 9% lacked *health* insurance. Four percent of adults sought dental care in an emergency department nationally.
- **Thirty-six percent** of adults in Michigan reported having at least one chronic health condition in 2024. Poor oral health is linked with chronic health conditions like [diabetes](#), [cardiovascular disease](#), and [dementia](#).
 - Nationally in 2024, 36% of adults reported having at least one chronic health condition.

Michiganders' Thoughts on Medicaid and Medicare Dental Coverage

- Michigan's Medicaid program [does include an adult dental benefit](#). **Seventy-three percent** of adults in Michigan say that dental benefits for both adults and children are included in their state's Medicaid program, and **94%** agree or strongly agree that Medicaid in their state should cover dental care.
- Traditional Medicare through the federal government [does not currently include a dental benefit](#). **Fifty-seven percent** of adults in Michigan say dental benefits are not covered by traditional Medicare, and **94%** agree or strongly agree that Medicare should cover dental care.

Take Action for Oral Health!

This election season is a key moment to raise the profile of oral health as a critical health policy issue among candidates. The Oral Health Progress and Equity Network (OPEN) has developed an advocacy toolkit with informational one-pagers, sample social media, and more to make outreach to candidates easy. **To learn more, visit the [OPEN Advocacy Toolkit](#).**

¹ Annual costs for emergency department visits for dental care are based on cost estimates from CareQuest Institute for Oral Health, [Recent Trends in Hospital ED Visits for Non-Traumatic Dental Conditions](#), Boston, MA: 2022; and US Census Bureau, [State Population by Characteristics: 2020–2023](#), Washington, DC: 2023.
